## SYNOPSIS

Simone is an introverted boy who struggles to let go. A hot August afternoon he invites friends to his splendid villa with swimming pool: it is his moment of glory. While he is looking for the courage to approach Francesca, who is having fun with her more casual friends, the unexpected happens and the situation worsens... will the young protagonist be able to make the right decision?

## DIRECTOR'S NOTES

Villa with swimming pool is a story about the sense of inadequacy and the fear of not being enough “cool” and casual of today's teenagers. On the one hand the desire to emulate others and the risk of conformism, on the other the strength and courage to make decisions outside the box. That is, the possibility of being yourself, without showing off your virility and without being ashamed of your emotions.

## DIRECTOR BIOGRAPHY

Graduated in psychology, Karma Gava studied film direction at EICTV school in Cuba. Founder of the communication agency Heliko Film with which he creates commercials and documentaries in the direction or production department, in 2022 he becomes a partner of the production and distribution company Artex Film.
